

Church Facility

Toddler playroom and babysitting available during worship for children under the age of 5 years old -- We encourage families to worship together and welcome all children into the sanctuary where they can participate in and learn about worship with their families and join the other children up front during the children's sermon time with the pastor. You are also welcome to bring your child to our toddler playroom, which can be supervised by a church member babysitter while parents attend church, if parents desire. Parents must be in the building and will be responsible for diaper changes.

Baby changing station -- There is a baby changing station in the ladies' bathroom.

Disabilities accessibility -- Our church is wheelchair accessible. Please see an usher for information or assistance when you arrive, or call ahead.

Air conditioning -- We have air conditioning in the sanctuary and office during summer months.

Parking -- We have a private parking lot that is illuminated with streetlights after dark.
